# MATTHEW GUENTHER

Front-end web developer with HTML, CSS, and JavaScript skills, a B.S. in Information Technology, 6 years of military experience, and an unparalleled drive to continue growing my skill set.

---

## SKILLS

JavaScript, HTML5, CSS3, AngularJS, SASS, LESS, Responsive Design, jQuery, Git, Sitefinity CMS

## RELATED EXPERIENCE

### WEB DEVELOPER AT VARIDESK — 2015-PRESENT

- Rebuilt the front-end of the global ecommerce website enhancing page load speeds, responsive design, and file structure.
- Authored 2 style guides for internal web application development including topics such as form styles, font patterns, button styles, page layout, and graphic layout.
- Enabled marketing to manage content by integrating the front-end with the Sitefinity CMS platform.
- Developed internal marketplace app allowing store administrators to maintain all aspects of product inventory and product control.
- Maintain and develop all current and new pages across US, Europe, and Australia domains.
- Developed and modified pages according to mockups while providing solutions to improve user experience and enhance implementation processes.
- Developed 42 transactional and informational email templates as per the requirements of the Marketing department.
- Provided CMS training to the Marketing department in order to maximize their abilities to create web content.
- Daily use of HTML, CSS, JavaScript, JIRA, Angular, VSTS, and Git

### SYSTEMS ADMINISTRATOR AT UNIVERSAL HEALTH SERVICES — 2014-2015

- Programmed a navigable script reducing the duration of routine maintenance and troubleshooting tasks by 92%.
- Created a scripted installation of the enterprise OS image that was deployed to 3,000 newly purchased computers.

### INFORMATION SYSTEMS TECHNICIAN AT U.S. NAVY — 2005-2011

- Rapidly coded an intranet trouble ticket submission site when a server outage took down the primary ticketing system.

## VOLUNTEER

### WEB CONSULTING - BOYS AND GIRLS CLUBS OF UTAH COUNTY — 2015

- Assisted with the planning and implementation of a volunteer application form and a searchable job listing page allowing for posts, modifications, and e-mail notifications of job applicants.
